

JK-MB

MULLION MOUNTING BRACKET

- INSTALLATION INSTRUCTIONS -

DESCRIPTION

The JK-MB is a Mullion Mounting Bracket for installing the JK-DV, JF-DV, or JO-DV video door station onto a mullion style door frame. The JK-MB can be installed on either side of the door.

Viewing angle varies by system. The JK-DV wide angle door station is pictured below.

MOUNTING

1. Use template to drill out hole locations on mullion.
2. Run wires through door mullion and out to where door station will be installed.
3. Run wires through cutout of the JK-MB and mount bracket to the door frame.
4. Connect wires to the door station. **Do NOT make wiring connections while the system is powered.**
5. Secure the door station to the JK-MB bracket.

See back page for template of the JK-MB.
