The IX2 offers

the **power** of an Enterprise platform with the **simplicity** of a single system.

It's a platform for enterprise security and communications that **grows with you**. It expands your network across multiple security layers for one, very powerful solution. **No annual Aiphone licensing fees. No proprietary servers. No need to train your staff** on multiple systems.

Combine that with built-in **backwards/forwards compatibility** and our extreme **reliability**, and you can feel confident in your choice for years to come.
